

BA-MS898 Multi Functional Alarm

Programmable loudspeaker

own
audio files

volume
adjustable

supports up to
5 messages/tones

perfect for use
in the cab and
outdoors

DESCRIPTION

The multifunction alarm informs and warns people in the driver's cab or around the vehicle. In dangerous situations, the warnings help to prevent accidents. The volume can be set for optimum use on the respective vehicle. The loudspeaker outputs can be individually recorded and programmed as voice announcements or sounds.
