- CLEAR SYSTEM STRUCTURE
- PREMIUM 3D FULL EUROPE NAVIGATION
- 44 COUNTRIES TOMTOM MAPS
- HIGH END NAVIGATION-COMPUTER
- UPDATEABLE AND EXTENSIBLE

NIK Solutions for Volkswagen

Navigation-retrofitting solution

The Navigation-Integration-Kit NIK-VWZ01 gives the ability to retrofit a Navigation onto VW/Skoda/Seat vehicles, which are equipped with the original 6.5" Touch-Screen Radio. The integration of the NIK components is done by simply connecting them between the original monitor and radio unit. By the plug & play cable kit the integration can be done without the need of changing the original radio or monitor - all original components remain without modification.

By long-pressing the MEDIA-Button on the radio the navigation picture will be switched onto the original monitor and can be operated by the original touch-screen. The highlight of this solution is the perfect integration into the vehicle with output of the navigation announcements via vehicle speakers and SmartSwitch function for auto switch between radio & navigation.

The NIK-System also has many expandable options that include the safety of a rear-view camera, Wi-Fi for internet connectivity, etc.

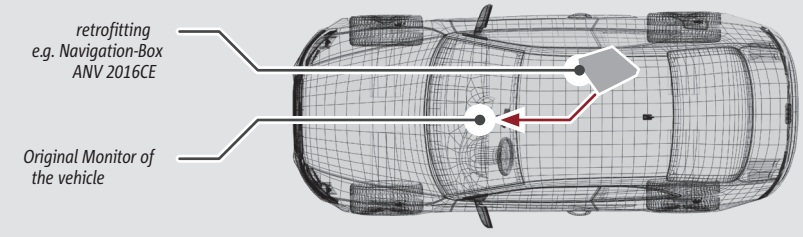

- Description for navigation:**
- Full EUROPE Maps (44 Countries, TomTom Maps)
 - Clear navigation presentation with various 3D features
 - Easy to operate and clear announcements (TTS)
 - Calculates not only fast, short, and economical AXION's navigation route variants, but also easy-to-follow routes, which include fewer and simpler maneuvers, using main roads where possible.
 - 30 days latest-map-guarantee via www.naviextras.com

- The NIK-Set includes:**
- ANV 2016CE CAR navigation box incl. premium navigation software
 - AXION VWZ Interface-KIT with Plug & Play cable loom

- Optional plugins*:**
- Rear View Camera
 - ANV-WIFI Adapter
 - TMC-Empfänger

Car Maker	Model	Radiosystem	Porsche Partno.
Volkswagen	Golf 7 Limousine / Variant Sportsvan (2016) / Polo (6C) Passat (B8) / Touran (2016)	Composition Media Radio with 6.5" Display	
Skoda	Skoda Octavia (2013-) Skoda Fabia 3 (2014-) Skoda Superb 3 (2015-)	Bolero Musicssystem with 6.5" Display	NIK-VWZ01
Seat	Seat Leon (2013-) Seat Ibiza (2016)	Media System "Plus" with 6.5" Display	

REMARK: On Radiosystems of the 1. Generation with 5.8 inch screen the picture quality of the navigation might be lower.

** requires an internet connection by using the ANV-WIFI Adapter in combination with a Smartphone as Hotspot

Technical changes and errors excepted.
